SKILLS, COMPETENCIES

Proactive

**Good communication and
organizational skills**

TECHNICAL SKILLS:

**JAVA SE,
SPRING FW,
SQL, JPA,
HTML, CSS,
JAVASCRIPT
ANGULAR
CLEAN CODE,
AUTO TESTING, SCRUM**

INTRODUCTION:

Since my childhood, information technology has been an integral part of my life, which is why I decided to pursue further studies as a computer engineer. When I had to interrupt my studies due to family reasons, I sought training that provides comprehensive practical knowledge, ensuring a swift integration into the professional world. I am enthusiastic about tasks that require a holistic understanding to solve complex problems. As a member of the Student Union (HÖK) at the university, I have already demonstrated my ability to work effectively in a team and, when necessary, to take on a leadership role. I am a fast learner, and I am genuinely interested in all aspects of software development.

EDUCATION:

- **2023.07. - 2024.02. PROGmasters** - Java full-stack software Developer course
- **2021 - 2023 University of Pécs** - Computer Engineer BSc (unfinished)
- **2016 - 2020 Széchenyi István High School (Sopron)**
